

Service Bulletin

Eaton® Steering Control Units

No. S94081

Date: October, 1994

To: Eaton Char-Lynn® Motors and Steering Units KIC Manual Contacts (9999-03)

Subject: SCU Cross Reference Numbers

In August of 1993, a product improvement for Steering Control Units was phased in which raised the revision level to -002. Several released part numbers were already at that revision level and therefore required a part number change.

Attached please find a cross reference list identifying the old part number and the corresponding new part number as well as a listing of where the parts are used in an Orbitrol-and-column assembly.

NOTE: Part numbers in this cross reference list are in ascending order sorted first by OLD SCU, followed by NEW SCU.
